

MANY DELEGATES PROMISE TO COME

Colon Weille and Secretary
Coons Have Success.

Two Hundred and Seventy-Five More
Delegates to Immigration
Convention.

ANOTHER TRIP WILL FOLLOW.

YESTERDAY'S RESULT.

Kevill	50
La Center	50
Barlow	75
Wickliffe	100
Total	275

If indications count for anything the immigration convention to be held in Paducah October 4 and 5 will be a success beyond the early expectations of its promoters. Yesterday Col. Ben Weille and D. W. Coons, secretary of the Commercial club, made a trip through western Kentucky and are more than gratified with the success of the trip.

Col. Weille said this morning: "We took the train to Kevill and had no more than made ourselves known before we had the promise of 50 delegates to the convention. The newspapers have spread the news broadcast and done us a world of good."

"At Kevill we took a horse and buggy and went to La Center. We met with the same favor that we enjoyed at Kevill. La Center promised 50 delegates and when we got to Barlow we got the promise of 75 delegates. Wickliffe promised 100 and we ended our trip there."

"We intend thoroughly to work the western end of the state and will this week go to Cairo, Wingo, Hickman and Columbus. Other smaller towns will be visited. We go to Cairo because our sister city will be interested in the outcome of the convention."

"From what we have seen I feel sure there will be 1,500 delegates to the convention. Everyone is enthusiastic."

TWENTY-FOUR HOUR MAN

Has Trouble Finding a Lot Large Enough.

The "twenty-four hour man" of the Barnum & Bailey show was mad this morning and mad for keeps. In the first place he had to go out into the wet and in the second place he had to make a tour of the city more thoroughly than he expected to find a location for his show, and he is still looking. The "twenty-four hour man" was directed over his route by a representative of the Utterback Advertising agency, and when the railroad shop site was viewed, stated that it would not be large enough for the whole show. He is now debating the question of two sites. The railroad site is the best for the show, as it will be easier to unload and load there, and will be better for the public to reach. By night the decision will be reached. It is thought that no other lot can be secured that will in any way come near being adequate.

HUNG ON FOR LIFE.

Leaning Out From Train Going Forty Miles an Hour.

Upper Sandusky, O., Sept. 26.—Nearly crazed with fear and unable to speak James Smith of Fort Wayne, Ind., was rescued from a perilous position on the side of the eighteen-hour Pennsylvania flyer after a ride of 133 miles from Fort Wayne in 133 minutes last night. He rode that distance hanging by his hands and

toes. Smith is accustomed to ride home by catching hold of a handle at the end of a coach and placing his toes on the edge of the lower step. As the flyer coaches are vestibuled, the footing is very insecure and the position dangerous, as it is necessary to lean back. Smith expected to get off when the train slowed up at a crossing, but last night the train was running forty miles an hour and he did not dare to jump. He could do nothing but hold on until discovered, and not until Upper Sandusky was reached did the engineer observe him. He was so weak that he was just about to drop off. He said, after regaining speech, that he could remember passing but two towns while the train passed through a dozen.

RIVER NEWS

River Stages.

Cairo	15.6	1.4	rise
Chattanooga	7.7	0.8	fall
Cincinnati	8.2	0.1	fall
Evansville—missing.			
Florence	6.9	0.9	fall
Johnsonville	11.1	0.1	rise
Louisville	3.8	0.1	rise
Nt. Carmel	1.1	0.1	rise
Nashville	12.4	3.3	fall
Pittsburg	6.0	0.1	fall
Davis Island Dam	3.0		St'd
St. Louis	11.3	0.4	rise
Mt. Vernon	5.7	0.3	rise
Paducah	9.5	1.5	rise

Rain is the only word which could start off the river news this morning. In fact rain about all there is to it. There was a good deal—1.20 inches in the 24 hours from yesterday morning till this morning. The river has responded promptly to such persistent wooing, the gauge registering a rise of 1.5 in the last 24 hours. The stage is 9.5. If the rain is general up and down the river the stage will shoot upward like it did last year at this date when the river was above 15 feet.

The Sallito was due to arrive out of the Tennessee river today on the return trip to St. Louis.

The Dunbar was the Evansville packet today. The Henry Harley did not get away till 7 o'clock last night for Evansville. Passengers should telephone to the wharfboat before going down to take a boat, except for the Dick Fowler. If you don't get there at 8 o'clock any morning, you'll be left.

The Clyde is receiving freight today for the up trip to the Tennessee river, and will leave at 6 o'clock this evening.

The Inverness went to the Tennessee river yesterday after ties. The Henrietta is being rounded into shape by the finishing carpenters and will resume its trade in the local rivers in the tie business.

This was one of those mornings when you see men standing around under shelter with their hands in their pockets and smoking pipes. Rain caused a curtailment of forces at the ways and docks today. The caulkers with work under the boats and the carpenters with work in the boat are at work, but outside work has been suspended.

The Buttorff arrived from Clarksville today and cleared, after unloading and re-loading, for Nashville. The Dick Fowler shed water like a duck this morning after having stood last night's drenching at the wharf. There was a fair business to Cairo.

The E. Douglas left for the Tennessee river after ties this morning. Capt. Mark Cole is running on the Douglas now. The boat gets ties for the Morse Tie company.

A St. Louis dispatch says: Navimobile No. 4, which was to have made a trial trip from Eads' bridge to Merchants' bridge yesterday afternoon, was obliged to defer the test on account of a screw breaking in the boat's machinery. The trial will be made later, but no definite time has been set. The craft is said to be especially fast, and the owners believe they can break the world's record for a mile. The boat has already made close to twenty-eight miles an hour, which is not far from the record for the style and class of motor boat. The navimobile has made the run from Alton to St. Louis in fifty-five minutes which more than cuts the usual running in two.

Official Forecasts.

The Ohio at Evansville and Mt. Vernon, no material change during the next 24 to 36 hours. At Paducah and Cairo, will continue rising during the next three days. A 17-foot stage is in sight for Cairo on present rise.

The Tennessee at Florence, will continue falling. At Johnsonville, will continue rising during the next 12 hours, then fall. The Mississippi from Chester to Cairo will continue rising during the next 24 to 36 hours.

There is nothing more disappointing to a woman who is prepared to hear a secret than the discovery that she already knows it.

PRETTY SCHEME TO DEFEAT COURT

Women to Send Girls Away
Temporarily December 1.

Judge Reed, of Circuit Court, Will
Instruct Sheriff to Act in
the Case.

ORDER NOT BLUFF THIS TIME

Schemes to avoid the full effect of the order of the circuit court, driving the women off Kentucky avenue, have recently come to light, and been reported to Judge Reed, it is said.

The latter's reply to his informant was that the schemes will prove abortive. "They must get off the street," was his ultimatum.

The information first came through a fellow, who spends much of his time on the avenue. His statement was that word had been passed along the line by some one in authority, to this effect:

"Just stay where you are. No court can make you leave your homes. But by the time December 1 rolls around have every girl out of town. Shoot them away, and then let them come back one at a time, so as not to attract attention, and in a few weeks you can resume operations without hindrance."

"This idea of cleaning out the street is an old bluff," is the way the adviser is said to have put it.

However, heretofore the women have had to deal only with the Paducah police. Now they are up against the commonwealth of Kentucky, and orders from the circuit court generally "stick."

Judge Reed is credited with saying that if his order is not promptly obeyed he will send the sheriff with sufficient officers to enforce the order and put them off the street.

The Paducah police department will not be called on, and since the indictments against the women are for maintaining nuisances and the authority of the court is ample, there is little likelihood of the defendants being able to get around the order.

They will not come back, either, according to the declaration of Judge Reed.

Independence of the Farmer.

"As officially computed by the department at Washington, the farm values of these five crops for the last year reached \$2,200,000,000. That was double the computed values for '35 or '36. In other words, for every \$100 which the farmer of 1895 or 1896 had to live on, to buy with, to spend, he had very near to \$200 in 1905."

"The aggregate values for all farm products for the year were estimated by the department at above \$6,000,000,000. It would probably be difficult to show that ever before in the history has farming received so high a return as in the last year. It is quite certain that it has never known, in this country at least, so long a period of profitable prices with a bountiful yield. It is perhaps no exaggeration to say that in consequence of these five years without precedent, the American farmer is in a position of greater economic independence, not to say opulence, than has ever before been known to the tiller of the soil in the whole history of the race. Up to within a few hundred years, of course, this tillage was in the main carried on by slaves, and the prosperity of the land proprietors was quite apt to reflect the misery of their chattels as favoring prices and harvest returns."

"The tremendous increase in farm values has naturally been followed by a corresponding increase of export values, in the amount of foreign purchases, and likewise in the so-called 'balance of trade.' In '92 our exports for the first time passed the billion dollar mark, though they had risen to \$900,000,000 in the record year of '81. But they fell away again in '93 and '94; in '95 they had sunk to \$800,000,000. In 1905 they were very nearly double this figure, reaching a gross total of more than \$1,500,000,000. This was five times the average values for the five years that followed the close of the civil war; it was ten times the exports of the last year of the war."—C. Snyder in Moody's Magazine for August.

To Keep Young.

(O. S. Marden in Success Magazine.) Never retire from active life if you can possibly avoid it; keep "in the swim;" keep the mind active; never refer to your advancing years or say "at my age." To preserve youth, you must have a variety of experience. The country woman at forty, although breathing a purer air and living on a more healthful diet than the city woman, often looks fifty, while the latter at the same age does not look more than

thirty. But her mind is more active than that of her country sister; that is the secret of her more youthful appearance.

Nothing else ages one more rapidly than monotony—a dead level existence without change of scene or experience. The mind must be kept fresh or it will age, and the body cannot be younger than the mind.

Few minds are strong enough to overcome the aging influence of the monotonous life which rates in the average country home. City people have infinitely greater variety of life. They enjoy themselves a great deal more than country people. They work hard when at work but, when they are through, they drop everything and have a good time. There is no doubt that the theater, in spite of its many evils, has done a great deal toward erasing the marks of age. People who laugh much retain their youth longer.

Justice Dickey a Joker.

Justice Dickey, of the New York supreme court, occasionally enlivens proceedings with jocular remarks to witnesses and lawyers. His Honor being careful generally that the laugh is not on himself. The other day, however, a young lawyer turned the tables in clever fashion. He had been laboring through an opening address, when the court remarked rudely: "Why don't you tell us what this suit is about? You're beginning at the end and going backward like a crab. I don't like crabs." This gave the young lawyer an opening. Remembering that Justice Dickey lives in Newburgh, he retorted at once: "I don't like crabs, either. As a matter of fact, I don't like any crustacean and since Your Honor has opened the subject permit me to say that especially I don't like lobsters, and more especially I dislike them a la Newburgh." The trial proceeded to a conclusion without further reference to matters outside the law and the evidence.

"There I stood, gentlemen," the long-winded narrator was saying, after droning on for an hour with reference to his trip to Switzerland—"there I stood with the abyss yawning in front of me."

"Pardon me," hastily interjected one of the unfortunate men who had been obliged to listen to the story, "but was that abyss yawning before you got there?"—Harper's Weekly.

SHE FOUND RELIEF.

If you are troubled with liver complaint and have not received help read this. Mrs. Mary E. Hammond, Moody, Texas: "I was in poor health—with liver trouble—for over a year. Doctors did me no good and I tried Herberine, and three bottles cured me. I can't say too much for Herberine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish." Sold by all druggists.

"What do you think of government ownership?"

"Well," answered Mr. Dustin Stax, "I'd be willing to take a chance on selling out my holdings to the government. The government never was a very good hand at a bargain."—Washington Star.

Foods That Make You Fat.

Potatoes, peas, baked beans, fats, sweets—such as puddings, pies and cake—ale, beer, sweet wines and even water when taken with meals, all conduce to obesity. But, in lieu of the foregoing flesh producers one may satisfy hunger with a moderate amount of lean meats, poultry, fish; with fruits (excepting figs, dates and bananas) and with vegetables, such as spinach, string beans, egg plant, celery, beets, etc.

I would recommend also that those overfat from a too rich and too generous diet abstain from much liquid at meals, but that they drink copiously of water between meals to flush their systems. Water, be it remembered, is an excellent purgative.—Outing.
